SUBJECT INDEX TO VOLUME 161

ABDOMEN
experimental, intra-abdominal pressure, increased, positive end expiratory pressure, 313
hernia, large, of wall of, repair, update on use of preoperative pneumoperitoneum prior to, 367
intra-, pressure, increased, experimental, positive end expiratory pressure with, 313
laparoscopy, 253
omentum, grafts, use of, during colonic and rectal operations, 486
surgery, clinical evaluation of absorbable polydioxanone ligating clips in, 250
intra-, infections, postoperative, prevention, use of piperacillin, cephalothin and cefoxitin, comparison of, 409
prediction of deep vein thrombosis after, by quotient between plasmin-α_2-antiplasmin complex and fibrinogen concentration in plasma, 339
post-, early, fluid collections, ultrasound detection, results of reliability, 5
use of dura mater allograft in large defects of, 47
wall, defect, large, surgery, use of dura mater allograft in, 47
hernia, large, repair, update on use of preoperative pneumoperitoneum prior to, 367
Adrenal gland
function, postoperative, evaluation of, 551
surgery, function after, evaluation of, 551
Ambulation
chronic, peritoneal dialysis, indications for operation when peritonitis occurs in patients on, 450
Amputation
digit, early, cost effectiveness, in patients with diabetes, 523
Antibiotics
antimicrobial agents, doxycycline and cefamandole, prophylaxis, for premenopausal women undergoing vaginal hysterectomy, 462
bleomycin, effects on wound healing, experimental, 323
cefoxitin, in prevention of postoperative infections in intra-abdominal operations, compared with piperacillin and cephalothin, 409
cephalothin, in prevention of postoperative infections in intra-abdominal operations, compared with piperacillin and cefoxitin, 409
piperacillin, in prevention of postoperative infections in intra-abdominal operations, compared with cephalothin and cefoxitin, 409
prophylaxis, cefazolin, and moxalactam, for abdominal hysterectomy, controlled comparative study of, 457
ceftriaxone and cefazolin, for hysterectomy, 197
one row anastomosis in colonic operations with, 136
Ascites
cirrhotic, versus malignant, peritoneovenous shunting for, 204
malignant, versus cirrhotic, peritoneovenous shunting for, 204
Anus
canal, cancer; carcinoma, epidermoid, treatment of, 509
cancer; carcinoma, epidermoid, treatment of, 509

BACTERIA
Pseudomonas, role in failure of treatment with ampicillin and Sulbactam for gangrenous and perforated appendicitis, 303
Biliary tract
calculi, slippage, into intrahepatic ducts, prevention, during exploration of common bile duct, 489
drainage, percutaneous use of transparent semipermeable polyurethane membrane for, 291
ducts, common, anastomosis, and duodenum, after previous gastrectomy or duodenal operations, 142
common, calculi, removal, difficult, technique for, using choledochoscope and biliary Fogarty catheter, 64
exploration, prevention of backward slippage of stones into intrahepatic ducts during, 489
inflammation, acute, intrabiliary pressure, significance of, 466
roentgenography, routine, operative, 343
roentgenography, routine, operative, 343
surgery, cholangiography, routine, 343
hepaticportoenterostomy, for atresia, 541
Bladder
incontinence, severe, in females, use of artificial urinary sphincter in management of, 17
Blood
cancer; carcinoma, leukemia, acute, surgery, emergency, 149
disease, leukemia, acute, surgery, emergency, 149
endotoxemia in, colonoscopic related, 332
experimental, hemodynamic effects of sclerosant sodium morrhuate, in dogs, 327
fibrin, fibrinogen, concentration in plasma prediction of deep vein thrombosis after extensive abdominal operation, by quotient between plasmin-α_2-antiplasmin complex, 339
hemodynamics, experimental, of sclerosant sodium morrhuate, in dogs, 327
hemoglobin, stroma-free, as oxygen carrying plasma substitute, 563
hemorrhage, rapid, experimental, naloxone does not prevent death after, 229
shock, experimental, cellular function in liver and muscle during, 419
plasma, quotient between plasmin-α_2-antiplasmin complex and fibrinogen concentration in, prediction of deep vein thrombosis after extensive abdominal operations by, 339
substitute, oxygen carrying, stroma-free hemoglobin solution as, modified, 563
vascular, grafts, and enteric, fistulas and erosions, 161
veins, plethysmography, phleborheography, 133
venous, central, liver, implantable, long term removal, improved technique for, 479
and peritoneum, shunting, for cirrhotic versus malignant ascites, 204
Blood pressure
high, portal, bleeding, sclerotherapy for, 557
severe, pregnancy induced, cardiovascular alterations in, seen with intravenously given hydralazine bolus, 240
Blood vessels
abnormalities, in gastrointestinal tract, in tropical country, 525
aortofemoral, graft, failure, management of, 274
arteries, carotid, roentgenography, intraoperative, safer, 171
catheters, Hickman-Broviac, complication of, 257
femoropopliteal, and distal bypass grafts, prognostic indicators, 129
grafts, femoropopliteal and distal bypass grafts, prognostic indicators, 129
occlusion, lower extremity, thrombolytic therapy, success

and complications of, statistical determinants of, 431
peripheral, occlusions, streptokinase therapy, regional, outcome, predicting, 453
small, syndrome, in women, 165
splenic, control, anterior approach, in distal pancreatectomy, 183
experimental, pulmonary pathology associated with hypertonic central venous fluid administration, 535
grafts, jugular vein, interposition, in distal splenorenal shunt, 372
roentgenography, carotid, intraoperative, safer, 171
impedance plethysmography, in diagnosis of acute deep venous thrombosis, 25
portal vein, direct, intraoperative, to achieve selective distal splenorenal shunt, 52
shunts, splenorenal, distal, jugular vein as interposition graft in, 372
surgery, vein, Gore-tex or composite graft, for femoropopliteal bypass, 308
thrombi, acute, deep veins, diagnosis, impedance plethysmography, 25
deep vein, prediction of, by quotient between plasmin-α_2-antiplasmin complex and fibrinogen concentration in plasma after extensive abdominal operation, 339
thrombosclerosis, injection of esophageal varices, 438
veins, central, experimental, fluid administration, hypertonic, and associated pulmonary pathology, 535
deep, thrombosis, acute, diagnosis, impedance plethysmography, 25
thrombosis, prediction by quotient between plasmin-α_2-antiplasmin complex and fibrinogen concentration in plasma, after extensive abdominal operation, 339
femoropopliteal bypass, vein, Gore-tex or composite, 308
grafts, twisting, prevention, and optimization of length, using new tunneller, 588
jugular, as interposition graft in distal splenorenal shunt, 372
portal, grafts, in hepatic transplantation, 66
shunt, splenorenal, distal, selective, intraoperative direct portography, 52
splenic, contrast, anterior approach in distal pancreatectomy, 183
venae cavae, filter, Greenfield, placement, simplified technique for, 481

Bones
femur, neck, fracture, prevention of fatal pulmonary embolism in, 37
fractures, femur, neck, prevention of fatal pulmonary embolism, 37
ribs, surgery, eleventh rib flank incision, for removal of, extrapleural approach with, 276
surgery, eleventh rib flank incision for removal of, extrapleural approach, 276
Brain
cranium, pressure, intra-, experimental, increased, effects of monitoring, noninvasive method, with near infrared spectrophotometry, 145
Breast
cancer; carcinoma, invasive, management, one and two step procedure, biologic considerations, 245
microcalcifications, geographic cluster, 532
Burns
treatment, in pregnant women, 1

CANCER
anal canal, carcinoma, epidermoid, treatment of, 509
breast, carcinoma, invasive, management, one and two step procedure, biologic considerations, 245
colon, carcinoma, and rectum, resection, extended, 319
esophagus, carcinoma, Barrett's, 570
larynx, carcinoma, radiation induced, 30
radiation therapy, induced carcinoma of larynx, 30
rectum, carcinoma, and colon, resection, extended, 319
thyroid, carcinoma, papillary, 546
Catheter
drainage, suction, closed, obstructed, clearing, technique for, 594
Fogarty, biliary, use of, technique, for removal of difficult stones of common duct, 64
Hickman-Broviac, complications of, 257
mesenteric, plication, new technique, for recurrent advanced obstruction of small intestine, 289
paracentesis, twenty-four year retrospective study, 335
peritoneal dialysis, insertion, improved results with paramedian technique for, 585
wick, electronic technique, for compartment pressure measurements, 173
Cells
experimental, function, liver and muscle, during hemorrhagic shock, 419
function, liver and muscle, experimental, during hemorrhagic shock, 419

Chemotherapy
experimental, effect on wound healing, 323
Collective review
Acid ingestion in experimental model, 91
Adult respiratory syndrome, 497
Central venous catheter sepsis, 293
Management of locally advanced and inflammatory carcinoma of breast, 399
Noncolonic diverticular disease, 189
Treatment of colorectal hepatic metastases, 597
Cysts
liver, intra-, opisthorchiatic solitary, 49

DIALYSIS
peritoneal, ambulatory, chronic, indications for operation when peritonitis occurs in patients on, 450
Diaphragm
rupture, non-left sided, due to blunt trauma, 266
Disease
infectious, eye as portal of entry of, 71
Drugs
ampicillin, and Sulbactam, for gangrenous and perforated appendicitis, failures, role of Pseudomonas species in, 303
bleomycin, effect on wound healing, experimental, 323
cefazolin, and ceftriaxone, prophylaxis, for hysterectomy, 197
cefoxitin, clinical evaluation of ceftizoxine, with clindamycin and gentamicin and, in treatment of postcesarean endomyometritis, 518
ceftizoxine, clinical evaluation of cefoxitin, with clindamycin and gentamicin and, in treatment of postcesarean endomyometritis, 518
ceftriaxone, and cefazolin, prophylaxis, for hysterectomy, 197
cisplatin, effects on wound healing, experimental, 323
clindamycin, and gentamicin, clinical evaluation with ceftizoxine and cefoxitin, in treatment of postcesarean endomyometritis, 518
etoposide, effect on wound healing, experimental, 323
gentamicin, and clindamycin, clinical evaluation of ceftizoxine and cefoxitin with, in treatment of postcesarean endomyometritis, 518
hydralazine, intravenous, for cardiovascular alterations in severe pregnancy-induced hypertension, 240
moxalactam, and cefazolin, for prophylaxis of abdominal hysterectomy, controlled comparative study of, 457

naloxone, experimental, does not prevent death after rapid hemorrhage, 229
Sulbactam, and ampicillin for gangrenous and perforated appendicitis, failures, role of Pseudomonas species in, 303
vinblastine, effect on wound healing, experimental, 323

ELECTROLYTES
fluxes, experimental, acute and chronic effects of truncal vagotomy upon, in small intestine, 33
Embolism
pulmonary, fetal, prevention, in patients with fractures of neck of femur, 37
Endoscopy
for guided intubation of long nasointestinal decompression tube, 282
Endotoxins
in blood, colonoscopic related, 332
Enzymes
streptokinase, regional, for peripheral arterial occlusions, outcome, prediction of, 453
Esophagus
cancer; carcinoma, in Barrett's, 570
and gastrointestine, reflux, modified fundoplication for, in children, 378
surgery, and jejunum and duodenum, plasty, double circuit, in reconstruction of alimentary tract after total gastrectomy, 581
tamponage, tubes, oral, new method for securing, 280
varix, injection thrombosclerosis, 438
Extremities
immobilization, safe, in infants, for intravenous fluid administration, 485
lower, amputation, digit, cost effectiveness, in patient with diabetes, 523
arteries, occlusion, thrombolytic therapy, success and complications of, statistical determinants of, 431
Eyes
as portal of entry for hepatitis and other infectious diseases, 71

FLUIDS
aspiration, thoracentesis, 381
experimental, administration, hypertonic central venous, pulmonary pathology associated with, 535
intravenous, administration, in infants, safe immobilization of extremities for, 485

GALLBLADDER
calculi, in vivo ultrasonographic findings, and correlation of in vitro measurements of contractility of, 471
predicting, clinicobiochemical factors in necrotizing pancreatitis, 139
surgery, nonsurgical technique for, 72
roentgenography, in vivo, of gallstones, and correlation of in vitro measurements of contractility of, 471
surgery, non-, calculi, technique for, 72
Gastrointestinal tract
alimentary tract, reconstruction, double circuit esophagojejunoduodenal plasty in, after total gastrectomy, 581
angiodysplasia, pattern of, in tropical country, 525
appendix, colic, recurrent, 21
inflammation, acute, in elderly, 157
in children, 261
gangrenous and perforated, treatment with ampicillin and Sulbactam, failure, role of Pseudomonas species in, 303
disease, lack of iron stores in, 362
and esophagus, reflux, modified fundoplication for, in children, 378
fistulas, graft-enteric and erosions, 161
surgery, reconstruction, of alimentary tract, double circuit esophagojejunoduodenal plasty in, after total gastrectomy, 581
Geriatrics
appendicitis, acute, in elderly, 157
Glucose
absorption, experimental, acute and chronic effects of truncal vagotomy upon, in small intestine, 33

HERNIA
surgery, recurrent, midline repair, 181
Hormones
vasopressin, release, during laparoscopy, stimulus for, 253

INFANTS
extremities, immobilization, safe, for intravenous fluid administration, 485
Infection
necrotizing fasciitis, 357
surgical, after intra-abdominal operation, prevention, using piperacillin, cephalothin and cefoxitin, comparison of, 409
Instruments
catheter, drainage, suction, closed, obstructed, clearing, technique for, 594
central venous lines, implantable, long term, removal, improved technique for, 479
choledochoscope, use of technique, for removal of difficult stones of common duct, 64
clips, ligating, polydioxanone, absorbable, in abdominal and pelvic operations, clinical evaluation of, 250
colonoscopy, related endotoxemia, 332
Greenfield vena caval filter, placement, simplified technique for, 481
long nasointestinal decompression tube, endoscopic guided intubation, 282
retractors, inexpensive, for laser operations, 392
Salem sump nasogastric tube, advantageous use of, for intraoperative decompression of distended intestine, 69
tubes, endotracheal, replacement, with continuous control of airway, 285
esophageal tamponage, oral, new method for securing, 280
tunneller, new, use of, in prevention of vein graft twisting and optimization of length, 588
ultrasound, detection of fluid collections in early postceliotomy period, results, reliability of, 5
in vivo findings in patients with gallstones, correlation of in vitro measurements of contractility of, 471
percutaneous, versus surgical removal of kidney stones, 473
in subsegmentectomy, 346
Intestines
anastomosis, re-, after Hartmann procedure, simplified technique for, 390
stapled, everted rectal stump technique for application of distal pursestring sutures in construction of, 287
cancer; carcinoma, colon and rectum, resection extended, 319
colon, cancer; carcinoma, and rectum, resection, extended, 319
and rectum, surgery, use of omental grafts in, 486
scopic examination, and related endotoxemia, 332
sigmoid, volvulus, new operative approach to, 483
surgery, anastomosis, one row, with antibiotic prophylaxis, 136
closure, method for determining fecal continence prior to, 388
transverse loop, diverting, totally, and distal irrigation, simplified technique for, 592
distended, intraoperative decompression, use of Salem sump nasogastric tube, 69
duodenum, and esophagus and jejunum, plasty, double circuit, in reconstruction of alimentary tract after total gastrectomy, 581
surgery, choledochoduodenostomy after, 142
experimental, ileal, reservoir, isoperistaltic side to side, electrical

activity and motility in, 425
fistulas, cutaneous, complex, wound care, practical approach, in patients with, 178
ileum, experimental, reservoir, isoperistaltic side to side, electrical activity and motility in, 425
jejunum, and esophagus and duodenum, plasty, double circuit, in reconstruction of alimentary tract after total gastrectomy, 581
and nasal, long decompression tube, endoscopic guided intubation of, 282
rectum, cancer; carcinoma, and colon, resection, extended, 319
and colon, surgery, use of omental grafts in, 486
stump, surgery, everted technique for application of distal pursestring suture in construction of stapled anastomosis, 287
small, experimental, effects of truncal vagotomy upon glucose absorption and water and electrolyte fluxes in, chronic and acute, 33
obstruction, recurrent, advanced, mesenteric catheter plication, new technique for, 289
surgery, for biliary atresia, 541
colon, closure, method for determining fecal continence prior to, 388
one row anastomosis, with antibiotic prophylaxis, 136
and rectum, use of omental grafts in, 486
transverse loop, diverting, totally, and distal irrigation, simplified technique for, 592
new approach to volvulus of sigmoid colon, 483
plasty, esophagojejunoduodenal, double circuit, in reconstruction of alimentary tract after total gastrectomy, 581
rectum, stump, everted technique, for application of distal pursestring suture in construction of stapled anastomosis, 287
resection, extended, for carcinoma of colon and rectum, 319
Intubation
endoscopic guide, of long nasointestinal decompression tube, 282
Iron
lack of, in patients with disease of gastrointestinal tract, 362
Irrigation
distal, and totally diverting transverse loop colostomy, simplified technique for, 592

KIDNEYS
calculi, surgery, versus percutaneous ultrasonic removal, 473
grafts, allo-, survival, long term, effect of delayed function on, 351
surgery, calculi, versus percutaneous ultrasonic removal, 473
shunt, and spleen, distal, jugular vein as interposition graft in, 372

LARYNX
cancer; carcinoma, radiation induced, 30
Ligament
falciform, use of, in repair of hepatic injuries, 383
Liver
cirrhosis, versus malignant ascites peritoneovenous shunting for, 204
cysts, intra-, opisthorchiatic solitary, 49
experimental, cellular function, and muscle, during hemorrhagic shock, 419
inflammation, eye as portal of entry of, 71
injuries, repair, use of falciform ligament, 383
surgery, for biliary atresia, 541
tumor, duct, confluence, radical resection, 223
ultrasonically, guided subsegmentectomy, 346
transplantation, portal vein grafts in, 66
tumor, duct confluence, radical resection, 223
Lungs
excision, left, unintentional extubation during, management of, 591
experimental, and pathology associated with hypertonic central venous fluid administration, 535
Lymphatic system
lymph nodes, surgery, elective, dissection, in those with clinical Stage I malignant melanoma, 575
surgery, lymph node, elective, dissection, in those with clinical Stage I malignant melanoma, 575

MUSCLES
experimental, cellular function, and muscle, during hemorrhagic shock, 419
vastus lateralis, flap, for repair of neglected rupture of quadriceps femoris tendon, 385

NERVES
cranial, vagus, excision, truncal, experimental, acute and chronic effects of, on glucose absorption and water and electrolyte fluxes in small intestine, 33
laryngeal, recurrent, identifying and testing, simple method for, 185
Nose
and intestine, decompression tube, long, endoscopic guided intubation of, 282

PARATHYROID GLANDS
hyper-, surgery, role of pathologist in, 101
surgery, for hyperparathyroidism, role of pathologist in, 101
Pancreas
diabetes, cost effectiveness of early digit amputation in patient with, 523
inflammation, chronic, calcifying, surgery, evaluation of, 117
necrotizing, clinicobiochemical factors in predicting gallstones in, 139
surgery, of chronic calcifying pancreatitis, evaluation of, 117
distal, anterior approach to control splenic vessels in, 183
Pediatrics
appendicitis, 261
modified fundoplication technique for connection of gastroesophageal reflux in, 378
Pelvis
surgery, clinical evaluation of absorbable polydioxanone ligating clips in, 250
Peritoneum
dialysis, catheters, insertion, improved results, with paramedian technique, 585
inflammation, occurrence, indications for operation, in patients on chronic ambulatory peritoneal dialysis, 450
pneumo-, preoperative, use of, prior to repair of large hernias of abdominal wall, 367
surgery, indications, when inflammation of occurs in patients on chronic ambulatory peritoneal dialysis, 450
shunting, and venous, for cirrhotic versus malignant ascites, 204
Pseudomonas
role in failures of treatment with ampicillin and Sulbactam for gangrenous and perforated appendicitis, 303

RADIATION
injurious effects, carcinoma of larynx, 30
Retroperitoneal space
tumors, hematoma, of traumatic origin, 106
Roentgen rays
blood vessels, veins, portal, intraoperative, direct, to achieve selective distal splenorenal shunt, 52
diagnosis, blood, false-positive results, frequent occurrence, during pregnancy, 133
blood vessels, carotid, intraoperative, safer, 171
breast, microcalcifications, geographic clusters of, 532
cholangiography, operative, routine, 343
gallbladder, in vivo findings, in gallstones, and correlation of

in vitro measurements of contractility, 471
impedance plethysmography, of acute deep venous thrombosis, 25

SCLEROTHERAPY
experimental, hemodynamic effects of sodium morrhuate, in dogs, 327
sodium morrhuate, experimental, hemodynamic effects, in dogs, 327
for treatment of bleeding in portal hypertension, 557
Shock
experimental, hemorrhagic cellular function in liver and muscle during, 419
hemorrhagic, experimental, cellular function in liver and muscle during, 419
Spleen
blood vessels, control, anterior approach, in distal pancreatectomy, 183
surgery, shunt, and kidney, distal, jugular vein as interposition graft in, 372
with Surgicel Avitene bolus, 176
Stomach
excision, total, double circuit esophagojejunoduodenal plasty in reconstruction of alimentary tract after, 581
mucosa, experimental, ulcer, peptic, alterations in lysosomal acid hydrolase, 57
surgery, choledochoduodenostomy after, 142
ulcer, peptic, experimental, lysosomal acid hydrolase alterations in mucosa from, 57
Surgeon's library
1885 Observation of penicillin by New York surgeon, 394
Letters of William Halsted and Erwin Payr, 75
Tudor cesarean section, 490
Surgery
blood, acute leukemia, emergency treatment, 149
stroma-free, as oxygen carrying plasma substitute, 563
cardiovascular alterations in severe pregnancy-induced hypertension seen with intravenously given hydralazine bolus, 240
elective, lymph node dissection in clinical Stage I malignant melanoma, 575
experimental, acute and chronic effects of truncal vagotomy upon glucose absorption fluxes, in small intestine, 33
cellular function in liver and muscles, during hemorrhagic shock, 419
effects of vinblastine, etoposide, cisplatine and bleomycin on, 323
electrical activity and motility in isoperistaltic side to side ileal reservoir, 425
hemodynamic effects of sclerosant sodium morrhuate in dogs, 327
lysosomal acid hydrolase alterations in gastric mucosa from peptic ulcer, 57
naloxone does not prevent death after rapid hemorrhage, 229
noninvasive method for monitoring effects of increased intracranial pressure with near infrared spectrophotometry, 145
positive end expiratory pressure with increased intra-abdominal pressure, 313
pulmonary pathology associated with hypertonic central venous fluid administration, 535
synthetic monofilament absorbable suture made from polytrimethylene carbonate, 213
infection, after intra-abdominal operations, prevention, comparison of piperacillin, cephalothin and cefoxitin, 409
postoperative study, acute appendicitis in elderly, 157
adrenal gland, function, evaluation of, 551
appendicitis in children, 261
biologic considerations regarding one and two step procedure in management of invasive carcinoma of breast, 245
carcinoma arising in Barrett's esophagus, 570
ceftriaxone and cefazolin prophylaxis for hysterectomy, 197
choledochoduodenostomy, after previous gastrectomy or duodenal operations, 142
of chronic calcifying pancreatitis, evaluation of surgical treatment of, 117
clinical evaluation of absorbable polydioxanone ligating clips in abdominal and pelvic operations, 250
clinicobiochemical factors in predicting gallstones in necrotizing pancreatitis, 139
colonoscopic related endotoxemia, 332
comparative clinical evaluation of ceftizoxine with clindamycin and gentamicin and cefoxitin in treatment of postcesarean endomyometritis, 518
complications of Hickman-Broviac catheters, 257
controlled and comparative, of moxalactam and cefazolin for prophylaxis of abdominal hysterectomy, 457
cost effectiveness of early digit amputation in patient with diabetes, 523
doxycycline and cefamandole prophylaxis for premenopausal women undergoing vaginal hysterectomy, 462
effect of delayed function on long term survival of renal allografts, 351
efficacy of elective lymph node dissection in those with clinical Stage I malignant melanoma, 575
emergency treatment for patients with acute leukemia, 149
esophagojejunoduodenal plasty, double circuit, in reconstruction of alimentary tract after total gastrectomy, 581
extended resection for carcinoma of colon and rectum, 319
frequent occurrence of false-positive results in phleborheography during pregnancy, 133
geographic cluster of microcalcifications of breast, 532
graft-enteric fistulas and erosions, 161
hepaticportoenterostomy, for biliary atresia, 541
implications of sclerotherapy for bleeding in portal hypertension, 557
indications for, when peritonitis occurs in patients on chronic ambulatory peritoneal dialysis, 450
injection thrombosclerosis of esophageal varices, 438
intraoperative direct portography to achieve selective distal splenorenal shunt, 52
jugular vein as interposition graft in distal splenorenal shunt, 372
lack of iron stores in patients with disease of gastrointestinal tract, 362
management, of burns in pregnant women, 1
of unintentional extubation during left pneumonectomy, 591
necrotizing fasciitis, 357
non-left sided diaphragmatic rupture due to blunt trauma, 266
one row anastomosis, with antibiotic prophylaxis, 136
opisthorchiatic solitary cyst, 49
outcome of failed percutaneous transluminal dilation, 43
papillary carcinoma of thyroid gland, 546
pattern of angiodysplasia of gastrointestinal tract in tropical country, 525
percutaneous, versus surgical removal of kidney stones, 473
peritoneovenous shunting for cirrhotic versus malignant ascites, 204
predicting outcome of regional therapy for peripheral arterial occlusions, 453
prevention of fatal pulmonary embolism in patients with

fracture of neck of femur, 37
prognostic indicators in femoropopliteal and distal bypass grafts, 129
prolapse of vagina after hysterectomy, 9
radical resection of tumor in hepatic duct confluence, 223
recurrent appendiceal colic, 21
reliability of results of ultrasound detection of fluid collections in early postceliotomy period, 5
retroperitoneal hematomas of traumatic origin, 106
role, of pathologist in treatment of hyperparathyroidism, 101
Pseudomonas species in failures in treatment with ampicillin and Sulbactam for gangrenous and perforated appendicitis, 303
routine operative cholangiography, 343
significance of intrabiliary pressure in acute cholangitis, 466
statistical determinants of success and complications of thrombolytic therapy for arterial occlusion of lower extremity, 431
thermal injury in pregnant patient, 209
trauma, serum and urinary cortisol response to, 445
treatment of epidermoid carcinoma of anal canal, 509
twenty-four year retrospective study, 335
ultrasonically guided subsegmentectomy, 346
update on use of preoperative pneumoperitoneum prior to repair of large hernias of abdominal wall, 367
use, of dura mater allograft in repair of large defects of abdominal wall, 47
of transparent semipermeable polyurethane membrane for percutaneous drainage of biliary tract, 291
vein, Gore-tex or composite graft for femoropopliteal bypass, 308
technique, advantageous use of Salem sump nasogastric tube for intraoperative decompression of distended intestine, 69
anterior approach to control splenic vessels in distal pancreatectomy, 183
for clearing obstructed closed suction drainage catheters, 594
for determining fecal continence prior to closure of colostomy, 388
electronic technique for compartment pressure measurement using wick catheter, 173
endoscopic guided intubation of nasointestinal decompression tube, 282
everted rectal stump, for application of distal pursestring suture in construction of stapled anastomosis, 287
extrapleural approach with rib removal for eleventh rib flank incision, 272
improved, for removal of long term implantable central venous line, 479
inexpensive retractors for laser operations, 392
management of aortofemoral graft failure, 274
modified, fundoplication, for correction of gastroesophageal reflux, 378
new, approach to volvulus of sigmoid colon, 483
for mesenteric catheter plication for recurrent advanced obstruction of small intestine, 289
for nonsurgical cholecystolithotomy, 72
paramedian, improved results, for insertion of peritoneal dialysis catheter, 585
plastic unification of double uterus and outcome of pregnancy, 152
practical approach to wound care in patients with complex enterocutaneous fistulas, 178
prevention of backward slippage of stones into intrahepatic ducts during exploration of common bile ducts, 489
recurrent midline hernial repair, 181
for removal of difficult stones of common duct using choledochoscope and biliary Forgarty catheter, 64
replacement of endotracheal tube with continuous control of airway, 285
safe immobilization of extremities for intravenous fluid administration, in infants, 485
safer, intraoperative, carotid arteriography, 171
for securing oral esophageal tamponage tubes, 280
simple for identifying and testing recurrent laryngeal nerve, 185
simplified, for intestinal reanastomosis for Hartmann procedure, 390
for placement of Greenfield vena cava filter, 481
for totally diverting transverse loop colostomy and distal irrigation, 592
spleen, with Surgicel Avitene bolus, 176
thoracentesis, 381
twenty-four year study of dependent catheter paracentesis, 335
use, of falciform ligament in repair of hepatic injuries, 383
of omental grafts in operations performed upon colon and rectum, 486
vastus lateralis, flap, for repair of neglected rupture of quadriceps femoris tendon, 385
Surgical Pros and Cons
271-272; 272-273; 273; 375-376; 376-377
Sutures
absorbable, synthetic, monofilament, made from polytrimethylene carbonate, 213
effect of lubrication on frictional properities, 416
material and construction on frictional properties of, 12
experimental, synthetic monofilament absorbable, made from polytrimethylene carbonate, 213
pursestring, distal, everted rectal stump technique for application of, in construction of stapled anastomosis, 287
Syndromes
small artery, in women, 165

TENDON
quadriceps femoris, rupture, neglected, repair, vastus lateralis derived flap for, 385
Thorax
surgery, thoracentesis, 381
Thrombolysis
success and complications of, statistical determinants, for arterial occlusion of lower extremity, 431
Thrombosis
venous, deep, acute, diagnosis, impedance plethysmography in, 25
prediction, by quotient between plasmin-α_2-antiplasmin complex and fibrinogen concentration, after extensive abdominal operations, 339
Thyroid gland
cancer; carcinoma, papillary, 546
Tissue
fascia, infection, necrotizing, 357
Trachea
endo-, tube, replacement with continuous control of airway, 285
Transplants
grafts, allografts, dura mater, use in surgical repair of large defects of abdominal wall, 47
allografts, renal, survival, long term effect of delayed function on, 351
aortofemoral, failure, management of, 274
interposition, jugular vein, in distal splenorenal shunt, 372
omental, use of, in operations performed upon colon and rectum, 486
vein, Gore-tex or composite, for femoropopliteal bypass, 308
venous, twisting, prevention, and optimization of length, using new tunneller, 588
kidney, allografts, survival, long

term, effect of delayed function on, 351
liver, portal grafts in, 66
Trauma
abdominal, paracentesis, catheter dependent, twenty-four year study, 335
blunt, non-left sided diaphragmatic rupture from, 266
retroperitoneal hematomas, 106
surgical, serum and urinary cortisol response, 445
thermal, in pregnant patient, 209
Tumor
hematoma, retroperitoneal space, of traumautic origin, 106
hepatic duct, confluence, resection, radical, 223
malignant, melanoma, clinical Stage I, elective lymph node dissection in, efficacy of, 575
melanoma, malignant, clinical Stage I, elective lymph node dissection in, efficacy of, 575

Urinary tract
cortisol response, and serum, to operative trauma, 445
sphincter, artificial, use of, in management of severe incontinence, in females, 17
Uterus
excision, abdominal, prophylaxis, moxalactam and cefazolin, controlled comparative study of, 457
prolapse of vagina after, 9
pregnancy, burns, management of in, 1
delivery, cesarean, endomyometritis after, treatment, comparative clinical evaluation of ceftizoxine with clindamycin and gentamicin and cefoxitin in, 518
frequent occurrence of false-positive results in phleborheography during, 133
hypertension, induced, severe, seen with intravenously given hydralazine bolus, cardiovascular alterations, 240
outcome, and plastic unification of double uterus, 152
thermal injury in, 209
surgery, double, unification, plastic, and outcome of pregnancy, 152
prophylaxis, ceftriaxone and cefazolin, 197

Vagina
prolapse, after hysterectomy, 9
surgery, in premenopausal women, prophylaxis, doxycycline and cefamandole, 462

Water
experimental, fluxes, effect of truncal vagotomy upon, in small intestine, 33
Wounds
experimental, healing, effect of vinblastine, etoposide, cisplatin and bleomycin on, 323
healing, experimental, effects of vinblastine, etoposide, cisplatin and bleomycin on, 323
treatment, practical approach, in patients with complex enterocutaneous fistulas, 178
